NOTICE

INGA MUNICIPAL DISTRICT
NO. 520.

PUBLIC NOTICE is hereby given that there has been introduced in the Council of Inga Municipal District No. 520, a Bylaw of which the following is a short synopsis—

BYLAW NO. 1.—A Bylaw of the Municipal District of Inga No. 520, for Restraining Animals from Running at Large.

Under the authority and subject to the provisions of the Domestic Animals Act (Municipalities), the Council of the Municipal District of Inga No. 520 enacts as follows:

All Domestic Animals are hereby prohibited from running at large within the following described portions of the said Municipal District of Inga No. 520, from the First Day of May to the Thirtieth Day of October in each and every year—

All of Township Fifty-one (51), Range One (1), and Fifty-two (52), Range One (1), west of the Fifth Meridian; Sections Twenty-five (25) to Thirty-six (36) inclusive, in Township Fifty-one (51), Range Two (2), and in Sections One (1) to Eighteen (18) inclusive in Township Fifty-two (52), Range Two (2), All, west of the Fifth Meridian.

And that a copy of the same may be seen in each of the following places—

Office of Secretary-Treasurer, Duffield.
Caretel Postoffice.
Duffield Postoffice.
Murrayville Postoffice.
Brightbank Postoffice.
Stony Plain Postoffice.

Mollenhauer's Corner, NE 31 51 1/2.

N.E. 31 2 1/2.

The Lucknow Schoolhouse, SW 2 50 5 1/2.

And further that unless within thirty days from the publication of this notice at least, forty resident electors of the Municipality petition the Council to submit such a bylaw to the vote of the resident electors of the Municipality the Council will proceed to pass the same.

DATED at Duffield, Alberta, this Fourteen day of July in the year 1926.

R. H. PIDGEON,
Secretary-Treasurer Inga Municipal District No. 120.

Death of an Old Resident.

One of Stony Plain's oldest settlers passed away on July 7th in the person of Barbara Baron, wife of Mr John Philip Baron. The deceased lady was born in an Austrian town on April 7, 1851; was married on Feb. 13, 1870; came to Canada with her husband in the year 1891, and has resided in this district ever since.

Deceased is survived by her husband, Mr John Philip Baron; four sons, Henry, Jacob, Philip and John; eight daughters, Mrs Henry Ulmer, Mrs Jacob Schuetz, Mrs H. Rosenthal, Mrs M. Zeigler, Mrs L. Shaw of Great Falls, Mont., Mrs M. Pennepeite, Mrs R. Swift of Vernon, B.C., Mrs Ed. Streifer.

The funeral took place Sunday July 11. Services were conducted at the residence by Rev G. Poetzsch, pastor of Spruce Grove, St. Matthew's Lutheran Church (Manitoba Synod). Interment took place in St. Matthew cemetery, at Spruce Grove.

The funeral was attended by the relatives and a very large number of friends who came to pay their last respects to a very worthy lady.

Church Announcement

On Sunday next, July 18, A Male Quartette will give a musical service at the Glory Hills Baptist Church at 10.30 a.m. Selections will be given in the German and English languages. Everybody Welcome.

LOCAL NEWS.

Mrs Iver Kleven has gone to Banff. She was accompanied by Mr and Mrs Joseph Kleven and Messrs Gus and Alfred Kleven.

Mr and Miss Mary Carmichael were visiting friends in Lamont over the week-end.

Mrs C. W. Russell was visiting this week with Mrs R. M. Oatway.

Lawrence Zilliox motored a party of friends up to Morinville on Sunday.

Jack Chisholm, a popular member of the Royal Hotel staff, has resigned, and resigned to the City.

Mr Paul Werner, the well-known horticulturist, has this season grown some extra large size strawberries in his garden. The Editor has been given samples which were as large as they grow in Oakville.

A letter received Monday from Herr Karl Pfeifer, who is at present visiting in Germany, states that he wishes to be remembered to his friends in Stony.

Mr Peter Baron made a motor trip to Lamont over the week-end.

Mr Frank Wucosok was taken to an Edmonton hospital this week for treatment.

Glen Carmichael was in attendance last week at the big Norse celebration in Camrose.

The party of girls from Stony who had been spending a vacation at Jasper returned Monday. Among these were: Mabel Clarke, Esther Wolfe, Dorothy Walton, Queenie Werner, Alice and Sadie McKinlay, Louise Zriber, Lydia Zucht.

The local school board is calling for tenders for hay to be cut on the school grounds.

The Member-elect from Stony Plain Constituency, Mr W. M. Washburn, wishes to thank in a hearty manner all those who supported him in such a splendid manner at the election recently held.

There was quite a flurry in Police circles on Friday last, when a car with a U.S. number plate and containing four young people was noticed on Main St. A circular had been sent out two weeks ago by the police in an Oregon town asking for the apprehension of two young men on a charge of abducting two underage ladies, the party leaving on a motor trip. As this outfit fitted the description, it was thought to be the one wanted, but the men were able to give a good account of themselves and their charges.

RE ROSE "is good COFFEE"

Canada's Year Of Jubilee

The Dominion of Canada has entered upon its diamond jubilee year and on July first next year Canadians will celebrate in a fitting manner the sixtieth anniversary of Confederation.

It will be most timely and in every way appropriate if in the months intervening before that historic date all Canadian organizations should elect chief men in their programmes to study Canada, past, present and future, and to present facts to their members and the people generally relative to the history, the development, the resources, and the boundless possibilities of the country.

Canada's diamond jubilee year presents a glorious opportunity to all our organizations to make this a "Canada First" year. Would it not be a fitting thing if, say once a month, every Canadian Club, Rotary Club, Kiwanis Club, Lions, Gays, and other service organizations, every Homemakers and Community Club, the Canadian Legion, all fraternal bodies, I.O.D.E., Y.M.C.A., Y.W.C.A., United Farmers, churches and schools devoted a meeting to some one phase of Canadian life, history or development.

Indeed, why should the Departments of Education of the several Provinces not arrange a special programme of studies in regard to Canada, all design taken of this occasion to depict in various ways the growth and development which has marked the past two decades. In a special way these facts are being presented by floats in parades in connection with our summer exhibitions. But why should plans not now be made, not only in the West, but throughout the length and breadth of the Dominion, to present at every exhibition next year through means of floats, parades and pageants the Canada of 1871 as contrasted with the Canada of 1927?

This jubilee year presents a golden opportunity for the presentation of historical plays and pageants designed not merely to entertain and bring out the artistic qualities of our people, in their preparation and presentation, but also to instruct in a most effective way.

The twin Provinces of Alberta and Saskatchewan are this year celebrating their coming of age as autonomous provinces, and advantage is being taken of this occasion to depict in various ways the growth and development which has marked the past two decades. In a special way these facts are being presented by floats in parades in connection with our summer exhibitions. But why should plans not now be made, not only in the West, but throughout the length and breadth of the Dominion, to present at every exhibition next year through means of floats, parades and pageants the Canada of 1871 as contrasted with the Canada of 1927?

Canadians, it is true, are not much given to this sort of thing. We are a reserved people and hate to display our feelings and emotions. We are not given to flag-waving. But surely all can unite in making the diamond jubilee year of Confederation an exception. We have hundreds of thousands of citizens, born in other lands and under other flags, who have chosen Canada as the land of their adoption. This jubilee year should be so utilized as to acquaint them with Canada's past history and achievements, to instill in their hearts and minds a real pride in Canada, to enthuse them with a desire to be Canadians in every true sense and meaning of the name.

If for one solid twelve month the people of this Dominion thought, talked and preached Canada, the cumulative effect in the arousing and development of a real national spirit would be tremendous. It would operate to break down old barriers of race and creed, would wipe out purely sectional considerations, jealousies and suspicions, and create an entirely new spirit throughout the land.

Canada is worthy of the very best that her people can give to it. Let us unite, therefore, in giving to Canada one year of undivided loyalty, consideration and thought, and unselfish devotion—a year of study of Canada, a year of service in endeavoring to arrive at a fuller understanding of her problems and needs, a year of unrelenting effort to solve those problems and meet those needs.

Objectionable Motor Signs

Movs Made in New Jersey to Revoke Licenses of Motorists With Offensive Placards

Commissioner Dill, of the New Jersey motor vehicle department, said he will attempt to revoke licenses of motorists who display offensive signs beneath registration plates.

Commissioner Dill said he believed this step was the only possible one to abate the evil. He added it was wrong to offend the public with placards on which profanity even was hinted at.

One of the signs to which he objected particularly reads: "If you can read this you are too damn close."

Okanagan Lake Service

New C.N.R. Steamship Service On Okanagan Lake

Announcement is made of the opening by the Canadian National Railways of a steamship service between Kelowna and Penticton on the Okanagan Lake. A new steamship, the *Pentown*, will make two trips each way daily, except Sunday, starting July 15. This extends the passenger service which was put into operation with the completion some months ago of the new Canadian National line between Kamloops and Kelowna, and gives a complete service from Penticton connecting with the Continental Limited east and west from Kamloops.

New Type Of Bandit

Confidence Man In England Uses Crossword Puzzle As Lure

Crossword puzzle bandits are latest things in British crookdom. Even the Englishman's reserve cannot withstand the desire for advice. In the search for words to fill the crossword puzzle squares. Hotel lounges are the favorite haunts of crooks who wrinkle their brows over a rare Australian bird in three letters, and then lean over to a prosperous snuff from the country to ask for aid. Sooner or later the conversation turns to get-rich-quick schemes. Scotland Yard is on the trail of two crossword puzzle triesters who posed as gentlemen farmers and succeeded in securing a real dirt farmer from Aylesbury from his bank roll. The confidence men are described as suave and well-spoken but poor spellers.

2 Years' Backache

Subdued by "Nerviline"

"Backache was the bane of my life, and for two years I was so lame as to be unfit for work," writes E. S. Sloane, from Georgetown. "While in Smith Street, Dr. Williams' Pink Pills cured me of my backache, and I have been a wonderful pain-destructor, so I decided to try Nerviline. Thanks to Nerviline, my two years' backache was rubbed away, and to-day I am perfectly well."

All those who suffer from weak, aching backs, those whose muscles are stiff, whose joints are swollen, let them try Nerviline. The liniment that never fails. 35c at all dealers.

Manitoba Industries

The largest group of industries in Manitoba, in number of establishments, is wood and paper products, of which there are 213, according to figures compiled by the Industrial Development Board of Manitoba. Next in order come vegetable products, with 190 plants; chemical products, with 129; and textile products, with 89.

GIRLHOOD DANGERS

Come Through a Weakening of the Blood & Tonic is Needed.

In their early teens it is quite common for girls to outgrow their strength, and mothers should carefully watch the health of their daughters at this time. If when the strength is sapped by rapid growth that anemia develops. The first signs may be noticed by peevishness, languor and headaches. The face grows pale, breathlessness and palpitation become apparent, with low spirits and depression.

Neglected anemia often leads to a decline, but if you see that your daughter's blood is enriched, there need be no cause for anxiety. The finest blood-builder ever discovered is Dr. Williams' Pink Pills. They will build up your girl's health and ensure for her healthy womanhood.

In proof of this Mrs. George Justison, Black's Harbor, N.B., says: "I think Dr. Williams' Pink Pills did me a wonderful service. My daughter, Margaret, was in such a badly run down condition that we feared she was going to decline. Her face was pale, the least exertion would leave her breathless and she suffered from headaches. She had no appetite and lost a lot in weight. Up to the time we began giving her Dr. Williams' Pink Pills no treatment had helped her. But thanks to the use of this wonderful medicine she is again well and strong, showing no signs of the trouble that had so weakened her."

In all troubles due to weak, watery blood, but if you see that your daughter's blood is enriched, there need be no cause for anxiety. The finest blood-builder ever discovered is Dr. Williams' Pink Pills. They will build up your girl's health and ensure for her healthy womanhood.

In all troubles due to weak, watery blood, but if you see that your daughter's blood is enriched, there need be no cause for anxiety. The finest blood-builder ever discovered is Dr. Williams' Pink Pills. They will build up your girl's health and ensure for her healthy womanhood.

Invited To Palace

Spanish Workman Did Not Recognize King Who Gave Him Lift

Here is another story to add to the many good ones told about King Alfonso of Spain.

Driving recently just outside Madrid, the king's car came to a standstill, and a minor accident had to be made by the chauffeur. At that moment a tired-looking workman, who was walking in the same direction, came up, and, not recognizing the king, asked him for a lift as far as Madrid. The king, with a smile, told him to jump up, and the car conveyed him swiftly to his humble dwelling in the slums of Madrid. Then the king shook hands with the amazed workman, who had begun to thank him. "Good-bye old man," he said. "Have a good rest, and if you want anything at any time, come and see me at the palace."

Minard's Liniment for Sore Feet

W. N. U. 1037

A Superior Milk Cap

A milk cap should do more than fit the mouth of a bottle. It should also be easily removable—impervious to water—neatly printed.

All these features are combined in the Appleford milk cap. Made of quality board it hugs the lip of the bottle, yet is so pliable it is quickly removed. All pores are filled with wax to protect the milk from moisture or contamination. The printing is clear-cut and distinctive.

Write for samples and prices.

Use Bad Language

Modern Mother Responsible For Great Deal of the Speech of Her Children

Bad language of the modern mother is responsible for a great deal of loose speech among school girls, Miss Mary Morrison, principal of the Francis Holland School for Girls, told the annual conference of the head mistresses' association in London.

"For years we have made allowances for father's strong language," Miss Morrison asserted, "but now mother is nearly as bad, and it is having a serious effect on the girl's speech among themselves. This is all a part of the so-called greater freedom."

Drives Asthma Like Magic. The immediate help from Dr. J. D. Kellogg's Asthma Remedy seems like magic. Nevertheless it is only a natural remedy used in a natural way. The smoke or vapor, reaching the most remote passage of the affected tubes, brushes aside the trouble and opens a way for fresh air to enter. It is sold by dealers throughout the land.

An Unexpected Sequel

Man Failing to Carry Out Death Pact Condemned For Murder

A death pact drama at Southport had an unexpected sequel. The young man aged 18 and his sweetheart of the same age agreed to commit suicide together. The girl died. The man failed to make good his share of the pact and as a result the court has condemned him to death for murder. The law holds that if two persons agree to commit suicide, and in consequence, one of them dies, the survivor is guilty of murder.

The cheapness of Mother Grass' Worm Exterminator puts it within reach of all, and it can be got at any drugstore.

Population and War

Militarists in all countries demand an increasing population, in order that an unfailing supply of recruits may ensure the national safety in the next war; but they also hold that wars are inevitable owing to the pressure of expanding populations—London Spectator.

Minard's Liniment for Rheumatism

More Bicycles Than Cars

Every sixth person in France has a bicycle, the total number being about 6,400,000. There are ten times as many bicycles in the country as automobiles.

Moscow Shirks Responsibility

Could Have Prevented Financial Help Being Sent to British Strikers

Moscow obviously is lying when it tells Great Britain that it is unable to prohibit Russian "trades unions" from sending money abroad to aid trades unions in other countries and disclaim all responsibility for the financial help sent from Russia to British strikers while the general tie-up was on, and afterward, upon refusal of the managers of the strike to accept it, transferred to the miners' federation.

If, as the protest against this there is no prohibition in its domain "against the remittance of money abroad, but only the obligation to obtain a permit for such remittance," that prohibition is lacking because the Moscow chiefs for their own reasons have purposely let down the bars, and the very statement that a permit is necessary is an admission that it lies within the power of Bolshevik government to put them up again at any time, and in any particular instance, as it pleases.—Detroit Free Press.

Powerful Medicine. — The healing properties in six essential oils are concentrated in every bottle of Dr. Thomas' Eucalypti. It is forming one of the most beneficial treatments ever offered to the use of man. Many can testify as to its power in alleviating pain, and many more can certify that they owe their health to it. Its wonderful power is not expressed by the small price at which it sells.

He had just arrived from the old country and was not familiar with the use of the telephone, so he took down the receiver and demanded: "Aye want to talk to my wife."

The operator's voice came back sweetly, "Number, please!" "Oh," he replied, "she has my second van."

Use Miller's Worm Powders and the battle against worms is won. These powders destroy the morbid conditions of the stomach which nourish worms, and these destructive parasites cannot exist after they come in contact with the medicine. The worms are speedily evaginated with other refuse from the bowels. Soundness is imparted to the organs and the health of the child steadily improves.

In a certain town in Italy the taxes are levied according to the weight of the taxpayer. The fat man is assumed to be prosperous and charged on his poundage.

If you find that you are being driven to despair, get out and walk.

Two Prairie Provinces Will Attain Their Majority In Regard To Age On Sept. 1st

The two Canadian provinces of Alberta and Saskatchewan attain their majority in regard to age on September 1st next. They will then be 21 years old as provinces of the Dominion. Prior to that date the area they now embrace had the status of territories administered largely by the Canadian Federal Government.

The creation of the two provinces reaching their majority provides an interesting retrospect. In 1906 the combined population of Alberta and Saskatchewan was 499,000 in round figures. It is now 1,800,000. The value of the annual agricultural production has increased in 21 years from about \$40,000,000 to \$78,000,000.

Alberta's wheat area is now nearly thirty times that of 21 years ago. The production of grain is nearly fifty times as great as in 1906. The average yield of wheat in 21 years has been over 18 bushels to the acre. Less than 11,000,000 of the 60,000,000 acres suitable for farming are sown to field crops. In this period Alberta has developed a dairy industry with products totalling in value more than \$20,000,000 annually.

Twenty-one years ago Saskatchewan produced 28,000,000 bushels of wheat. Last year the yield was over 240,000,000 bushels, more than half of the total wheat production of the Dominion.

It is now the principal wheat growing area in North America, if not in the world. While wheat is still the main crop, mixed farming has made rapid progress in all parts of Saskatchewan. Twenty years ago butter was imported by the carload into the province. Last year the creamery butter production amounted to fifteen million, eight hundred and fifty thousand pounds. There still remains 58,000,000 acres in Saskatchewan suitable for profitable farming.

These two youngest of the nine sisters that form the Federal Union of the Dominion of Canada have reason to be proud of the robust state of their progress in 21 years.

Amateur Mushroom Cultivation

The Fall is the Best Time For Preparing Beds

Few people have no taste for mushrooms, and many would like to grow them. The latter would be well advised to read to the Publications Branch of the Department of Agriculture at Ottawa for Circular No. 45, wherein Mr. H. T. Gussow, the Dominion Botanist, tells of the requirements of a promising bed of mushrooms. The director, it might be stated, has been specially prepared for amateurs, who are advised to proceed slowly at the start and to take care that the fundamentally important facilities are provided. In the first place the cultivation of mushrooms out of doors in Canada is not recommended as a warranted success. As they do not require light, a cellar below a dwelling, or a place freed for storing vegetables will answer. The fall of the year is considered the most suitable time for preparing the beds. The fundamental requirements, says Mr. Gussow, are the facilities with which the regulate temperature and degree of moisture may be maintained and controlled, keeping these elements at a uniform level, being the first condition to success. Nothing, says our authority, seems more disturbing than sudden drops in temperature, or the absence of a system of ventilation, preventing the regulation of moisture in air and bed. Proceeding from this counsel the circular deals with the necessity of manure and methods of treatment, preparation of the beds, the spawn and specific manner of cultivation.

Wool Exports

Total exports of wool from Canada in the fiscal year ending March 31st, 1926, amounted to 6,514,767 pounds, valued at \$2,445,997, as compared with 5,621,241 pounds worth \$2,135,521 in the previous fiscal year. Contrary to the previous year, when the United Kingdom received large shipments, practically the entire export clip went to the United States, which took 4,165,904 pounds, valued at \$2,358,574.

W. N. U. 1637

The Care Of Growing Pullets

Development Of Pullets For Early Winter Egg Production

Good parent stock, good, shady range, a well balanced ration and comfortable housing are essential for the development of pullets for early winter egg production. Without a free range they will not be properly matured before winter conditions make it necessary to put them into winter quarters. Dry, well-drained land with plenty of shade and growing green feed are essential.

From the age of two months a dry mash, consisting of equal parts, by weight, of cornmeal, bran, shorts, ground oats, and beef scrap should be kept before the pullets constantly in self-feeding hoppers. In addition a semi-wet mash consisting largely of chopped green feed such as mangold tops, alfalfa, clover, cabbage leaves, corn or sunflower tops, etc., should be given twice a day. It is also necessary to keep before the pullets constantly a hopper of good mixed grain and a supply of milk. Clean, fresh water should be before the birds at all times and oyster shells and grit should be always available.

The pullets should not be kept in the same quarters as hens. A portable colony house on wheels can be made inexpensively. It should be dry and well-ventilated with plenty of space, as on no account should there be overcrowding.

The Overhead

Box—"What's this item on your expense account?" Overhead expense \$17.

Travelling Salesman—"That was an umbrella I bought."

The days are past when the grocer used to nick a potato carelessly on the spout of a kerosene can.

Agricultural Colleges Have Contributed Enormously To Farming Industry In Canada

Western Land Prices Low

Great Inducement For Immigrant Farmer Says Governor of Hudson's Bay Company

Speaking at the annual meeting of the Hudson's Bay Company in London, Charles Vincent, the governor of the company, in referring to the heavy taxation of the company reminded the proprietors that it all had been charged to capital receipts in respect of land. Consequently 2,515,000 acres which still remained in possession of the Hudson's Bay Company, were an entirely free asset.

The governor pointed out that the present price of land in the prairie provinces of Canada was lower than that of similar land in any other part of North America, despite the fact that the average tax on farm land was lower in Canada than in the United States and the average yield of spring wheat was high.

Available figures suggested that the prices of farm lands in Canada were as low as they ever would be, he continued.

Here, then, was the great inducement which, Canada offered to the immigrant farmer—the cheapest land with the highest yield in the North American continent.

Not Too Exacting

Luncher (to a man who is making off with his overcoat)—"I beg your pardon, sir, but in case we don't meet again, may I have a couple of cigars out of the pocket?"

Agricultural colleges, demonstration and experimental farms have meant enormously increased production in Canada and have very considerably more than paid for their upkeep in that and other respects, maintained Principal J. B. Reynolds, of Queen's Agricultural College, in the course of an address at a luncheon under the auspices of the Kiwanis Club of Ottawa, and members of the Canadian Society of Technical Agriculturists. Principal Reynolds urged there might well be a series of agricultural apologetics, as there was of theological apologetics, the idea being to bring home to the people at large the enormously beneficial results of technical training and of scientific agriculture.

Principal Reynolds maintained that the choice may be between fewer men, farming on scientific lines and with a higher standard of living, and many farmers, but with a low standard of living. According to some agriculturalists it was not difficult to account for a certain amount of exodus from the farm as the need for so many men working is reduced by scientific methods.

The principal was not enamored of so-called synthetic farming. He told of a friend who merged six hundred-acre farms into one six hundred-acre farm, and when he saw him recently he had had to "lose" several thousand dollars from his city business to make up a deficit on the operation of the big farm.

Free Homesteads Taken

A Great Oaf of Free Land is Still Available in the West

In the month of May this year 545 homesteads were taken up in Western Canada, an increase of 211 over the number of entries in May, 1925. Of the total of 545, seventy-two entries were made by Americans in Saskatchewan there were 245 entries of which 125 were in the Prince Albert district and 109 in the Moose Jaw area. In Alberta the entries totaled 230, of which 148 were in the Edmonton district, 61 in Peace River, and Grand Prairie, and the remaining 17 in the Calgary and Lethbridge districts. The entries in Manitoba totaled 70, of which 51 were in the vicinity of Dauphin and 16 in the Winnipeg district.

The Canadian Government still has fairly large areas of land for homestead entry in Manitoba, Saskatchewan and Alberta, and in the Railway Belt and Peace River Block in British Columbia. Free grants of 160 acres are made to British subjects or those who declare their intention of becoming British subjects. An entry fee of \$10 is charged by the Canadian Government and certain conditions of residence and cultivation are required to be fulfilled within three years.

The homestead lands are now a considerable distance from the railways—40 to 60 miles—and, consequently settlers with some capital may regard the purchase of stock farm lands close to railways and markets at \$15 to \$20 an acre on long terms of payment as a better economic proposition.

Co-operative Hatchery

Will Be Established in Calgary in the Near Future

A province-wide co-operative hatchery and brooding establishment will be started in Calgary in the near future, as soon as a building site has been selected. It is the object of the establishment to have four units for the first year. Each unit comprises a 15,000 egg capacity electric incubator and 600 feet of brooding houses. The farmers will send their rear to the hatchery where they will be hatched in the large incubators and the chicks kept until they are old and strong enough to look after themselves, when they will be shipped back to the farm.

Mother—"Oh, my boy will die! My boy will die!" she sobbed. "He will not take the medicine that would save him!"

Boy (in bed)—"Don't cry, mother, father'll be home soon and he'll make me take it."

It's easy to be patient when you have nothing at stake.

Trail Riders' Third Annual Pow-Wow

1. Ready to go after pitching camp 2. Excitement about

The grave old mountains that surround the beautiful little Piarmian valley near Lake Louise will hear and see things this summer that will remind them of the good old days when Indian hunters and warriors made the hill echo with their shouts when they danced about their great campfires. For this lovely spot has been chosen by the Order of Trail Riders of the Canadian Rockies to be the place where they will hold their annual Pow-Wow on August 1, following the official trail ride.

Many parties have camped in Piarmian Valley, but never such a one as there will be this summer when trail riders gather from all over the world to attend their great feast. Then the deep silence of mountains and lake will be broken for one day when the hoof-beats of several hundred ponies sound through the valley.

From all indications the Pow-Wow of 1926 will be bigger and merrier than those of previous years. At noon on August 1, two parties of trail riders will meet at the camp in the valley, pitch their tents, and when night falls, light a great fire around which the official ceremony will be held, and join in singing trail riders songs.

There will be two official trail rides this summer, both a five-day ride and a three-day ride. Members going on the longer ride are meeting at Lake Louise, so famous for its beauty and its magnificent Canadian—Polish

Chateaus, on July 29, and following the trail up the Bow Valley to Moccasin Creek, making a side trip to Bow Pass. Then up over Molar Pass, and up the little Piarmian to Baker Lake, so by Piarmian Lake to Piarmian Valley. They plan to make 20 miles a day for the first three, 16 miles on the fourth day, and 2 miles on the fifth.

Those taking the three-day ride will start from the Banff-Lake Louise road and follow the trail past Johnston Creek to Baker Creek and Baker Lake, and so to Piarmian Valley. This party will travel more leisurely, making about 14 miles a day for the first two and nine miles on the third day. After the Pow-Wow all the trail riders will return to Lake Louise by Carleton Creek.

The Order of the Trail Riders is just three summers old this year, and already has a membership of about 600, more than 100 of which have enamel buttons showing that they have travelled more than 2,500 miles. The

rest have buttons, too, different kinds, according to the distance they have travelled: a bronze button for 40 miles, a silver one for 100 miles, a gold one for 500 miles, and a gold and enamel one for 1,000 miles.

Its aims are chiefly to encourage horseback travel through the Rockies, to promote the breeding of suitable saddle horses for high altitudes, to keep up old trails and build new, to protect the forests and encourage the love of outdoor life and the saving and conservation of wild life, to prepare and circulate maps of existing and proposed trails, and help maintain the observance of close and open seasons for fish and game.

The order has recruited its members from all classes, all ages and all parts of the world. Last year's Pow-Wow was attended by artists, writers, European pupils, Indian chiefs and American millionaires. Leading the ride was a lady of society, with a fad of twelve brought up the rear.

NO DEARTH OF CANDIDATES IN FEDERAL FIELD

Toronto—Two former Liberal cabinet ministers from Ontario who were defeated in October, 1926, will be in the running at the approaching federal election, it was stated here. Hon. George M. Gordon, former deputy speaker of the house and minister of immigration, will contest Peterboro, while Hon. Thomas A. Low, former minister of trade and commerce, will contest Renfrew.

It is expected that Right Hon. MacKenzie King will be offered the Liberal nomination in North York.

Mr. C. Drury, former premier of Ontario, is expected again to contest North Simcoe against W. A. Boyd, Conservative whip.

The Globe carries the following item in its news columns:

"Honor has singled out Hon. John S. Martin, minister of agriculture, as third member of the Ontario cabinet to whom one of Premier McPherson's Ottawa portfolios-in-the-making may be held out. Premier Ferguson and Attorney-General Nickle have already been named as possible selections for the federal ministry. Of the three Queen's Park men, Mr. Martin, it was believed in Conservative circles, would be the most likely to sever provincial connections for the larger theatre of activities at Ottawa."

Montreal—"Le Devoir," organ of Henri Bourassa, former M.P. for La Belle, gives prominence to the following:

"According to what can be learned today, one of the bombs which the Conservatives are preparing to launch is the re-entry of Sir Robert Borden, former premier of Canada from 1911 to 1913, into active politics in order to assist Mr. Meighen with his counsel, and direction during the forthcoming electoral campaign. Mr. Meighen, within the past few weeks, has hastened to secure Sir Robert Borden's advice; the latter received him cordially and inspired certain of his decisions."

Fear Famine In Mexico

Floods Have Completely Destroyed Most of Crop

Mexico City.—Rising flood waters threatened Mexico City with complete isolation and fear is expressed here that the nation may face famine or a food shortage unless large quantities of food are imported to replace crops destroyed by the flood.

All railway tracks within 15 or 20 kilometres of the capital are completely cut by water and prospects that the train service between here and El Paso, Laredo and many interior points would have to be suspended.

In the state of Puebla a cloudburst over the Malinche Mountains caused a torrent that dug a path 15 feet deep and a mile wide and destroyed over a mile of track near the station.

Apparently there has been complete destruction of crops throughout the Mexican plateau and the loss is estimated at from 30,000,000 to 15,000,000 pesos.

A Miraculous Escape

Child Run Over By Train Escapes Injury

Parkhill, Ont.—To have a fast passenger train run over rails between which she was sleeping and emerge unhurt, was the strange experience of the two-year-old daughter of Ralph Robison, of East Williams. The child owes her life to the fact that she lay in the exact centre of the rails and did not move while the train was passing over her.

The child had wandered away from her home and, evidently exhausted, stretched out on the warm cinders on the Canadian National Railway right-of-way. Soon after she fell asleep and the train passed over her.

King Receives Lord Willingdon

London.—Viscount Willingdon, who is to succeed Lord Bynoe as governor general of Canada, was received by His Majesty King George last week. It is understood that Lord Willingdon's recent mission to China in connection with the Boxer indemnities was the subject of discussion, rather than his new Canadian appointment.

W. N. U. 7637

Armament Committee Adjourns Until August

Will Then Meet To Study Methods Of Limitation

Geneva.—The American delegation took a strong position in the disarmament discussions against the plan of completing the armament of countries by a comparison of the budgetary expenditures. The project was defeated by a large majority.

After the discussion, the military committee adjourned to August 1, when it will continue its examination of the technical aspects of disarmament, and study especially methods of limitation.

The League of Nations signalled the necessity for issuing an official communiqué summarizing the work accomplished, but refrained from comment or predictions.

The official communiqué lays stress on the expert's work in strengthening armaments to limit the forces in service in peace time; second, the forces prepared for war time; and third, ultimate war forces created during hostilities by utilizing general resources. The power of a country in war time is dependent on the resources which constitute its power in peace and on the conditions of time and preparedness under which all its available resources may be applied in war.

Visit Is Not Political

Lord Clarendon Coming to Canada on Land Settlement Business

London.—Owing to recent political developments at Ottawa, rumors were circulating that the visit to Canada of Lord Clarendon, under-secretary for the dominions, was a mission of political importance. An instance of these rumors is the statement of the London editor of the Yorkshire Post who says that, besides discussion of overseas settlement, "it is recognized that before Lord Willingdon goes to Rideau Hall, someone should 'test the waters' in Canada, particularly as regards the imperial conference and other such questions."

The Canadian Press was informed officially that Lord Clarendon will take up with the Canadian authorities only questions of land settlement. He sails on Saturday in company with T. C. MacNaughton, vice-chairman of the Overseas Settlement Board. They will travel across Canada, but will not make any public addresses. Their visit was arranged some months ago, it is stated.

Continue Customs Probe

Clean-up of Department of Customs and Excise Is Proceeding

Ottawa.—A clean-up of the department of customs and excise is now proceeding and will continue steadily, according to Hon. H. E. Stevens, acting minister of that department, who was asked this afternoon the extent to which he was prepared to go in implementing the resolutions adopted by the house in its concluding days.

It is believed that in a short time there will be the appointment of the judicial tribunal approved by the judges of the exchequer court. Its work would be to continue the investigation into the administration of the department and ascertain the best means of making the enforcement of the law more effective.

Abandons Work In Egypt

Sir Flinders Petrie Transfers Activities to Southern Palestine

London.—The famous Egyptologist, Sir Flinders Petrie, has decided to abandon research work in Egypt and transfer his archaeological activities to Southern Palestine, because of the "dog in the manger" attitude of the Egyptian department under the French director of antiquities.

Sir Flinders is quoted by The Daily Express in an interview detailing hindrances imposed upon research workers as saying that other skilled excavators at Thebes have abandoned their work and are compelled to spend their time frantically discovering things that had made two years ago.

Cannot Get Coal

London.—The Daily Mail says almost complete stoppage of the Lancashire cotton mills is expected owing to lack of coal supplies. Very few firms have another week's supply and there is little likelihood of their getting more, owing to the miners' strike.

LABOR OPPOSES COAL PURCHASES FROM GERMANY

London.—Lively scenes were enacted in the House of Commons during consideration of the vote on an appropriation of £2,000,000 to may coal bills abroad for fuel purchased by the government since the miners' dispute began.

The Labor members vigorously opposed buying more coal abroad, some of them did not mince words about it, but nevertheless the vote carried 243 to 116.

John Wheatley, who was minister of health in the Labor cabinet, objected particularly to the government buying coal in Germany to heat the British miners, who responded to the call to defeat the Germans in 1914.

The tilt in the house came upon the heels of an announcement in the House of Lords that the Yorkshire miners had consented to offer the same ratio of wages and profits as other districts, thus removing a stumbling block and making it possible that the final stages of the eight-hour mines bill may be reached.

Demands Dismissal Of British Officer

Canton Government Annoyed Over Alleged Threat to Close River

Canton.—The Canton Government has demanded the dismissal of the British senior naval officer here because he is alleged to have threatened to close the port of Wei Chow on the Sinking River, west of here, against Chinese shipping if pilots are not permitted to take British warships up the river to investigate the death recently of J. M. Phillips, a British subject. Phillips, British manager of the Asiatic Petroleum Company, was slain by bandits after being kidnapped.

Prepare To Harvest Crop

Alberta Making Plans To Secure Supply of Harvest Help

Edmonton.—First move in the direction of harvest help supplies for the crop that is now growing has just been made by the provincial labor branch, which has completed a preliminary survey of the wheat belt for the purpose of ascertaining this year's acreage. The next step will be a conference with the Western Passenger Association in Winnipeg, in which Alberta will join with the other western provinces. This is set for July 16 and Walter Stewart, government commissioner of labor, will attend as Alberta representative.

Hon. Herbert Greenwood Weds

Edmonton.—The marriage of Mrs. Marie Greenwood McCormack and the Hon. Herbert Greenwood, former prime minister of Alberta, was very quietly solemnized here, at the home of the bride's sister, Mrs. W. H. Hanford and Mr. Hanford, 1928-101 Ave. Only immediate relatives witnessed the ceremony, which was performed by the Rev. Dr. McQueen, of First Presbyterian Church.

Two Dolls on Empress World Tour

Two of the tiniest passengers on board the Canadian Pacific liner Empress of Scotland, making the cruise around the World, were Mendenhall's Pits and George's, a pair of marvellous dolls which amused the grown-ups. Pits is a real Faribault blonde and doesn't even know what porcelain is. George is a brunette whose eyes more than once turned in the direction of some lucky sailor mate. Dressed in the height of fashion, the two mannikins were given an airing on board the deck of the Empress of Scotland almost daily. At the left, above, is Pits on the lap of an admirer, while on the right is George in the arms of another charming passenger.

Snowslide In B.C.

Occurred East of Revelstoke But No Casualties Reported

Vancouver.—Carrying hundreds of huge boulders weighing two or three tons each, a veritable river of water, and big timbers poured across the Canadian Pacific Railway tracks near Lauriat, about 16 miles east of Revelstoke, B.C.

An engine and four cars of a work train were swept from the track to the banks of the Hillcreek river. While another car is missing and is believed to have been buried under the avalanche. It is believed no one was in the car.

Thousands of tons of wet snow moved down the mountainside with a devastating roar, covering the tracks with six to eight feet of water for a distance of about 700 feet. A portion of the track was washed out, necessitating repairs. Telegraphic communication was temporarily discontinued.

The intense heat of the past few days together with heavy rainfall is believed to have been responsible for the slides.

London Has Meat War

Rival Packing Firms Cutting Prices As Meat Becomes Scarce

London.—A meat war is raging in London, says The Daily Mail. Argentine beef has been selling this week at Smithfield, London's central meat market, at less than it costs to import it.

The Daily Mail, which is investigating the circumstances, traces the low price to a war among rival meat packing firms. The newspaper declares the war is being waged with reckless fury, notwithstanding that everyone denies its existence.

During the past year, The Daily Mail declares, firms concerned in importing beef from Argentina are estimated to have lost anything from \$500,000 to \$10,000,000. Nevertheless importation continues without any concerted regard for public needs and apparently will continue until one of the big concerns has found courage enough to admit it cannot go on losing money as all have been doing the past year.

Relic Of Former Days

Manitoba Historical Society Is To Get Historic Cannon

Winnipeg.—Some of the cannon that were used in the old Hudson's Bay Company's post, Fort Gerry, the creper-covered gateway of which always remains, are likely to come into the possession of the Manitoba Historical Society, which was recently organized.

The guns were mounted for action then Louis Riel held the fort till he fled at the approach of Col. Wolseley's troops. Another interesting relic of the Red River settlement days that has been donated to the society is a Red River cart. Historic societies in other parts of the Dominion have offered to co-operate with the local organization.

Armed Guards Watch Exams

Paris.—Any student who cheats at the Sorbonne will have his nerve with him. Members of the Republican Guard in full uniform and armed with bayonets watch examinations.

THE QUESTION OF EQUAL STATUS FOR DOMINIONS

London.—The issue of dominions and treaties was raised in the House of Lords when Lord Barnard, asking for information on the nature of obligations which treaties contracted by Great Britain impose on the dominions, called attention to the inconsistency arising from the fact that the dominions were subject to dangers and obligations if Great Britain declared war to enforce treaties, whereas the dominions after the war they had helped to win, were now claiming the positions of equal partners who have achieved full status.

Lord Clarendon, under-secretary of state for dominion affairs, replying for the government, said the importance of the issues raised were realized and they would be discussed at the imperial conference. He had only recently received a report of the debate at Ottawa and had not yet found time to digest it.

The under-secretary said the government was most anxious to satisfy fully and strongly the importance they attached to the principle of equal status and said it was his empire did not depend on the form of constitutional principles as much as the belief of the people in the righteousness of the cause they upheld.

Railway Union Upholds Chief

Gives Vote of Confidence to Veteran British Labor Leader

Weymouth, Eng.—Hon. J. H. Thomas, general secretary of the National Union of Railwaymen and one of the leaders in the settlement of the recent general strike, has received another vote of confidence from his union.

A demand for his dismissal, because of his conduct during the general strike was supported by only six of the delegates to the union's conference.

The resolution demanded his resignation for signing the award of the National Wages Board, whereby the railwaymen were not given the unified gratuity they had asked. It was defeated by an overwhelming majority.

Britain Has New Flying Boat

Machine Just Completed Is Intended For Submarine Spotting

Hull, England.—A new triple-engine flying boat, features of which are jealously guarded, has been taken on order by the British Admiralty. The machine of the Blackburn Aeroplane and Engineering Company, the flying boat has been named "Iris." She has, it is stated, taken two trials to construct, and has cost \$60,000. Her maximum engine capacity is given as 1,600 h.p. The machine is intended for submarine spotting and general reconnaissance work.

These are accommodation for a navigator, three pilots, and a crew of about ten men. The trial flight was, it is said, satisfactory.

To Study Law In Quebec

Premier's Son To Be Student At Laval University

Quebec.—Theodore Melghe, son of the prime minister, is among the candidates for admission to the study of law who are now here for the annual examination of the bar of the province. Mr. Melghe is entering Laval University here in the fall.

In all 141 candidates for admission to either the study or practice of law are making the examinations.

Melghe Denies Report

Ottawa, Ont.—The report in yesterday's columns, calculated to stir up mischief only, and is made of whole cloth, declared Premier Arthur Meighen in referring to a published report that his acting minister had received word that at the present time the government of Canada was vested in Lord Byng, setting on the advice of Mr. Meighen.

Heavy Rains In Japan

Tokyo.—Heavy rains in Western Japan have drowned thirty persons and destroyed about 4,500 houses.

Here and There

Tremendously rapid development
of forest and water power resources
of the Province of Quebec is indi-
cated in the forecast of revenues
totaling \$9,000,000 from these
sources for the current year. Last
year the same resources produced a
revenue of nearly \$1,500,000.

Sixty men from the training camps
in Brandon and Claydon, England,
have been accepted by the Canadian
Government and sailed on the "Em-
press of France" at the end of June.
They proceeded to Winnipeg after
landing at Quebec and will be placed
on specially selected farms.

Saskatchewan exported last year
77.4 per cent. of its total production
of creamery butter, according to a
statement made by the Provincial
Dairy Commissioner. The increase
in production in 1928 over that of
1920 had amounted to 126.8 per
cent., the output last year totalling
15,946,233 pounds.

Close on one hundred pilgrims
from St. Paul and Minneapolis
passed through Montreal recently on
their way to the famous shrine of
Ste. Anne de Beaupre, near Quebec.
They were the advance guard of the
great army of pilgrims that visit the
shrine every year. While stopping
off in Montreal they visited the St.
Joseph Oratory in that city, also
well-known as a shrine.

Hundreds of students and co-eds
from Canadian and American uni-
versities have been passing through
Montreal recently to board ships for
Europe in connection with the Over-
seas Collegiate Tours that have
grown increasingly popular of late
years. Many of these collegians
travel by Canadian Pacific boats, the
"Empress of France" on a recent
trip carrying over 250 of them.

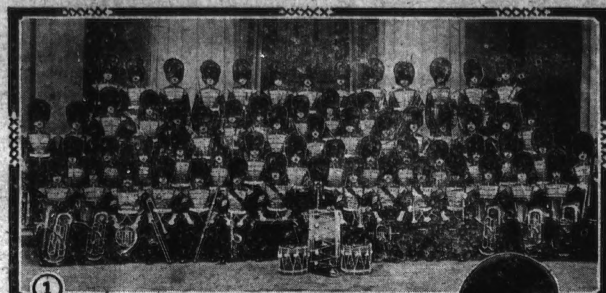

Clad in gorgeous scarlet tunics,
plentifully decorated with gold-braid,
forty members of the world-famous
Coldstream Guards Band, of Lon-
don, reached Quebec recently on the
Canadian Pacific liner "Montcalm"
on their third visit to Canada, having
been here in 1904 and again in 1911.
Under the command of Lieutenant
R. G. Evans they will play at Bran-
don, Calgary, Edmonton, Saskatoon,
Regina, Vancouver and the Toronto
Exhibition.

The electrification of the main
line of the Imperial Japanese Gov-
ernment Railway system from Tokyo
to Shinonoi, 750 miles, has been
long projected, and recently the 45-
mile section between Tokyo and
Odawara has had experimental
trains drawn by electric locomotives
on twice a day between those points.
Owing to the great expense involved
it is feared it will be many years be-
fore the entire main line can be elec-
trified.

Founded 92 years ago in gardens
on the site of which the Canadian
Pacific Railway Windsor Street Sta-
tion in Montreal now stands, the St.
Jean Baptiste Society of that city
celebrated that event on June 24th
last by having a memorial tablet
affixed to the walls of the station.
The tablet was the gift of Victor
Morin, former president-general of
the society, who was present and un-
veiled it.

Negotiations have been completed
for the erection, and work will
shortly commence, upon a terminal
warehouse and cold storage plant, to
cost about five million dollars and
to be built in Montreal. It is stated
that it will be constructed within ten
months from the end of June, will
be ten stories in height and will
have a total space of 600,000 square
feet, of which one-third will be for
cold storage. The plant will be built
by the Montreal Wharf and Harbor
Terminal, Limited, and cost will be
financed by Municipal Bankers' Cor-
poration of Toronto.

Historic Coldstreams Band in Canada

(1) Band Grouped Prior to Sailing for Canada.
(2) Lieut. R. G. Evans, Director of Music to the Coldstream Guards.

The band of the famous Coldstream Regiment, the
"finest descendant of the 'New Model' the first
Regular Army," which was raised and organized by
Oliver Cromwell, are touring Canada this summer
under the direction of Lieut. R. G. Evans. The Lord
Mayor of Liverpool was on the dock when the band
embarked on the Canadian Pacific liner "Montcalm"
amid the cheers of thousands of people.

Arriving in Quebec on June 25, the band proceeded
on their way West, where they will fulfil a number
of engagements at the Brandon, Saskatoon and Regina
Exhibitions, and the Calgary Stampede. Their tour
will probably extend as far as the Pacific Coast in-
cluding, also, visits to Vancouver and Winnipeg.
Returning in the fall, the band will play at the Toronto
Exhibition, and embark for home on the "Empress
of Scotland" on September 15.

The last visit paid to Canada by the Coldstream
Guards Band was in 1911, under the direction of Lieut-
Col. Mackenzie-Rogan, one of the Regiment's most fa-
mous bandmasters, who enlisted as a band boy in 1867
and rose to be Director of Music to the Coldstream
Guards and Senior Director of the Brigade of Guards.
When Col. Mackenzie-Rogan took charge of the band its
total strength was thirty-four performers, but when
he handed it over to his successor, Lieut. Evans, in
1920, the band establishment was sixty-six.

There is evidence that a Coldstream Band existed in
1742. At first its members were civilians, but in 1783
the officers petitioned their Colonel-in-Chief for a band
of regular attested musicians and got it. This band
included two oboes, four clarinets, two bassoons, one
trumpet, two horns and one serpent. What 1915 when
the band had been augmented by the introduction of
several more instruments, it was ordered to Paris dur-
ing the occupation by the allies.

Self-Controlled Aeroplane

World's Largest Passenger Liner
Virtually Fits Itself

The huge Vickers-Rolls-Royce Vanguard air liner, the largest passenger aeroplane in the world, has been fitted with a new gyroscopic control, which once in the air can be set to fly the machine on a given course without the pilot again touching the controls, and is now to undergo a series of day and night flying tests on the Imperial Airways.

This is a giant with its own control gear virtually fits itself. Once it is set on its course it continues to fly level even though the pilot vacates his seat—in fact, in an actual test flight the pilot left his controls and sat in the cabin reading a newspaper for half an hour before returning to his cockpit to find that the machine was still flying steadily on its course—London Observer.

caught her breath at the originality of this thought—the men matched the women whose jeweled throats shone velvet white against their black shoulders.

And the music—soft exotic strains that laughed and sobbed their rhythmic ecstasies. Jazz, of course, but not the kind she had ever heard. A super jazz that called to her with its melodies of lulling romance. Her feet were still and her slender, warm pulsed little body was quiet, but her soul was dancing; the gleams in her deep brown eyes were dancing and through her brain new sensations danced. Brandon was wholly sensible of the little dramas that flitted across the eager face he eyed so curiously.

“That shouldn't be serious,” Brandon observed. “Wounds of that sort are easily healed. He'll soon be thinking better of his temper—and his suspiciousness.”

“I am not so sure of that!” she returned quickly.

“He doesn't understand me—it seems as if nobody does. But he was the only one who hurt. It would be easy to strain out his mind, or worse. But he couldn't preach at me, any more. That would make him uncomfortable.”

“Was it, then, so serious? Is he so very nervous?”

Joanna shot a quick glance at her questioner. “I decline to answer that now. You said there was to be a second question—what is that one?”

“You have already answered it,” he murmured. “It had to do with—John. I won't ask any more about him. I am to be his rival, you know.”

Brandon's habit of saying this sort of thing so easily, worried Joanna. Any of her boys fumbled dreadfully when they attempted deft gallantries. “I believe you could look into any woman's eyes and say, ‘I love you’ with a free conscience and without a quiver,” she challenged him.

He laughed softly. “You will find few men, in your new career, who will hesitate with such a vow,” he replied. “And, I fancy, you will not be long learning how to meet all such emergencies.”

“I shan't fear the men,” she agreed. “It's the women. I wonder how I can bring myself to measure up. You see I realize that I shall have to learn a lot of new—well, learn a lot!”

“I'd give most anything if you would finish your phrase—a lot of what?”

CHAPTER IX.
Joanna Answers Questions.

Brandon watched the girl who sat opposite him, across the still table. The wrath-like smile—the smile that irritated, while it flattered, hovered slyly at his lips, and in his eyes. The girl he watched, breathier quickly, alertly, while she surveyed the brighter scene around them. Her eyes leapt into far corners of the pink and gold dining room, to among the dancers and the other via a vast tables like their own. Suddenly her glance met Brandon's. She nodded at him, as if she had surprised his reflections, what ever they were.

“It was good of you to come,” Brandon murmured. “Presently it will not be such a simple matter to win a tete a tete from you.”

“After awhile, I hope, you will tell me what you know and I don't know, of what ‘presently’ is to be for me,” Joanna returned, the serious cloud which was never far absent, showing again in her face.

“We shall have to make a new bargain,” he said. “That you will accept from me completely that I am only a spectator to your extraordinary circumstances. I shall be part of them, only as you give me favor. What are you . . . ?”

“Please!” Joanna interrupted; “Not now—not just yet! Of course a man always has a list of questions to put to any girl he is just getting acquainted

with, at least that's what I've found, and your list is longer than most, I suppose. I've always had the answers—learned them by heart. You know, but they won't fit now. So I shall have to think when you start in. And I don't want to think—just yet. About myself, I mean.”

She felt to looking about the room, again, eyes wandering restlessly, but clinging with the inner setting of the moment.

Brandon had come for her—he had chosen the brightest of the fashionable rendezvous for their evening.

Brandon had come to her, as they had agreed, for the wake of the flowers she had found, in their tasseled boxes awaiting her when she returned with George from their gay round of shopping after her visit to Graydon's office. One of the blooms now clung to her waist. Brandon, as he eyed her, compared its delicate perfection with the more buoyant loveliness of his mistress—a loveliness still marred, he saw, by the too elaborately penciled eyebrows, the beaded lashes, topped from a screen close-up, and lips that betrayed a new attempt at reserve but still were much too cupid-like. There were accents that few would notice in the conglomerate company around them, but Brandon's was an experienced taste.

For their evening he had chosen the brightest of the fashionable rendezvous where names and distinction of some sort or other are held to be the only acceptable essences. The women were beautiful, and of the varied pattern that decorates the new age. Debutantes and matrons from the first families, rapturous and red-shodded women of the nouveau riche from the best families, and the ever inescapable few of movie celebrities from none. Joanna had tasted of the gaudy cabaret—they had been the lamp posts along her path of gaiety. But here—here were women governed by the master dressmakers of the day, artists of the world of the elect. And the men matched the women. She

“But I haven't made a program of them, he protested—once more his voice was like a cat's. “I promise to combine them into one, two, at most; and be content with whatever you conclude to tell me. What are you going to do—that, of course, is the first one.”

“And that's longer than any list I can ever put to you,” she assured him. “Yesterday morning I went to my job at the store wondering if I could get along for two weeks' salary. Tonight I'm wondering where to begin to spend money. You see one of my plans—the first one I made got all smashed up somehow. I don't know how—but it's gone, anyhow.” Brandon probed deep. “That was a most interesting chap who waited for you last night—in the drawing room. He ventured to wonder if the smash you have in mind came after I left you?”

Joanna looked out into the room, as if, in the brilliance of the scene to soothe her memory of the hours in the “drawing room, only” after Brandon had gone.

“Yes,” she admitted, quietly. “After you left. You see John was all that I had, the only one to share with. He was a most interesting chap who waited for you last night—in the drawing room. He ventured to wonder if the smash you have in mind came after I left you?”

**Face Badly Broken
Out With Pimples
Cuticura Healed**

“My face was so badly broken out with pimples it was actually disfigured. They first started with a few blackheads on the sides of my face, and fastened. The pimples spread to my forehead, chin and neck. They itched and burned so that I could hardly see. They looked so badly that I was ashamed to be seen in public. The trouble lasted about three weeks.”

“I read an advertisement for Cuticura Soap and Cuticura Cream, and I used about two boxes of Cuticura Ointment and Cuticura Cream, and my face was healed. (Signed) Mrs. John Kelly, Rt. 3, Bay City, Mich., Nov. 5, 1925.”

Nothing so insures a healthy, clear complexion, soft, smooth hands and glossy, lustrous hair as Cuticura Soap, and Cuticura Cream. Cuticura Ointment when necessary.

Be sure you get the real Cuticura. Look for the Cuticura Seal on the box. Cuticura is made by the Cuticura Shaving Soap Co., New York, N. Y.

Sign Posts Of The Sea

Sailors Gain Information From Buoys Which Mark Certain Places

As the traveler by land looks to the fingerposts at cross roads and elsewhere for guidance on his journey, so does the sailor gain information from the buoys or signposts of the sea which mark the water at certain spots.

But, unlike the ordinary fingerpost, these sea buoys would convey little or nothing to the landsman at first sight, because the meaning of buoys is a subject that must be studied before it can be understood.

For instance, certain buoys of a recognized shape may always be looked for in certain positions when you are making for a harbor or river from seaward. In such cases your course will be marked by “starboard-hand” buoys—on your right—and “port-hand” buoys—on your left.

A starboard-hand buoy must always be painted in only one color. A port-hand buoy may be in single color or partitioned, but its color must differ from that of the starboard-hand buoy. The spherical buoys, marking middle grounds, must be painted with white horizontal stripes. The beacons surrounding buoys must be painted in a single dark color.

No man or woman should hobble painfully about because of corns when so certain that must be handled as Holway's Corn Remover.

Little Helps For This Week

Blessed be he of the Lord, who hath not left off his kindness.—Ruth, II, 20.

Nor hath thy knowledge of adversity Robbed thee of any faith in happiness.

But rather cleared thy inner eyes to see.

How many simple ways there are to be wise.—James Russell Lowell.

If we had lost our own chief good, other people's good would remain; and that is worth trying for. Someone can be happy. I seemed to see that more clearly than ever when I was wretched. I can hardly think how I could have borne the trouble if that feeling had not come to me, to make strength.—George Eliot.

Minard's Liniment for all pains

Ships Sail For Arctic

Four ships will sail from Vancouver within the next two weeks for the Western Arctic Ocean, carrying trade goods and stores, worth an estimated value of \$500,000. The Hudson's Bay Company is sending two vessels and a Vancouver trading company the other.

The Deaf Hear

More than 80 per cent. of the children in the deaf and dumb institutions of Hull, England, have heard speech and music for the first time through the use of a device invented by a Hull civil engineer, the British official wireless report states. The apparatus looks like a small wireless receiving set, and permits sound to travel to the inner ear of deaf patients.

GIVE CONFIDENCE TO YOUNG MOTHERS

By Always Keeping Baby's Own Tablets in the Home

A simple and safe remedy for the common ills of babyhood and childhood should be kept in every home where there is either a baby or a young child. Often it is necessary to avert the little one something to break up a cold, allay fever, correct sour stomach and banish the irritability that accompanies the cutting of teeth.

Experienced mothers always keep Baby's Own Tablets in the home as a safeguard against the troubles that seize their little ones so suddenly and the young mother can feel reasonably safe with a box of these Tablets at hand and ready for emergencies. Baby's Own Tablets are a mild but thorough laxative that act without griping and they are absolutely guaranteed free from opiates or other harmful drugs. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A philosopher says that every failure is a step toward success. This explains why some men become richer every time they fail.

Excellent for Croupy Children.—When a child is suffering with croup it is a good plan to use Dr. Thomas' Electric Oil. It reduces the inflammation and loosens the phlegm giving speedy relief to the little sufferer. It is equally reliable for sore throat and chest, rheumatic pain, cuts, bruises and sprains. Dr. Thomas' Electric Oil is regarded by many thousands as an indispensable of the family medicine chest.

An English gramophone company celebrating its twentieth anniversary, says that the most popular single in its long list are the “old favorites” and not the new songs.

DIARRHOEA

Relieved Quickly, easily and surely by one or two doses of Chamberlain's Colic & Diarrhoea Remedy

BAKER'S OVENS—Write for catalogues and list of food stores. Hubbard Owen Company, 1100 Queen West, Toronto.

For the treatment of all diseases of the skin, throat, nose, ears, eyes, and all other ailments. It is the only remedy that cures all these ailments. It is the only remedy that is safe and reliable. It is the only remedy that is cheap and accessible to all.

SICK ABED EIGHT MONTHS

After Taking Lydia E. Pinkham's Vegetable Compound Could Do All Her Work and Gained in Weight

Melfort, Saskatchewan.—“I had inward troubles, headaches and severe pains in my back and sides. I was so sick generally that I could not get up and I was in bed most of the time for eight months. An aunt came to visit and help me as I was unable to attend to my baby and could not do my work. She told me to try Lydia E. Pinkham's Vegetable Compound, and after taking two bottles I could get up and dress myself. I also took Lydia E. Pinkham's Blood Medicine. When I took the medicine I only weighed seventy-eight pounds. Now I weigh twice as much. If I get out of bed or weary and can't sleep I always take another bottle of the Vegetable Compound. I find it wonderfully good for female troubles, and have recommended it to my neighbors. I will be only too glad to answer any letters I receive asking about it.”—Mrs. WILLIAM FITCH, Box 486, Melfort, Saskatchewan.

Cream is Costly Feed for Calves!

You are giving them many dollars' worth and you don't know it because your old machine is no longer a clean skimmer. Cream doesn't fatten calves, but the sugar and starch in the skim milk does.

Trade in Your Old Worn Machine at a Good Price as Part Payment on a

New "Melotte"

Money could not buy a separator that will save cream so consistently as the "Melotte." For forty years it has been demonstrating this fact, and no one who has used it and made the most exhaustive tests, will dispute this claim.

Small herd or large herd, a "Melotte" will certainly add greatly to the profits of the dairy. Let us give you a Free Trial on Your Own Farm—the result will be instantaneous and so perceptible you will say it was the best bit of "trading" you have ever done.

The Suspended Vibrator Bowl is one of the secrets of the "Melotte's" close skimming. Let us tell you of the other features that explain why "Melotte" will last for twenty years—7,500 days—which is its average life, and clean as closely at the end of that period as it did at the beginning.

Stony Plain and District.

Mr Otto Wudel returned yesterday from a motor trip to Calgary.

Antoinette Zucht conducted a sale at Duffield on Friday last.

On Thursday July 8, to the wife of Mr. Jacob Geisinger, a boy.

One of the enterprising gardeners hereabouts is Mrs. Zahn of Bright Bank, who came to town Tuesday with a large consignment of early vegetables, consisting of turnips, beets, cauliflower, etc.

Holborn U.F.W.A. are giving a dance in the hall tomorrow (Friday) evening.

A very successful barndance was held last week at the farm of J. H. Coates, Duffield. A crowd of over 300 was present and all had an enjoyable time. The music was furnished by the local orchestra. Proceeds from the collection are being donated towards the building of a community hall in that locality.

Subscribers will greatly oblige by sending remittances by C. N. Express orders.

Walther League Convention.

The third convention of the Lutheran Walther League was held in Calgary from Friday last to Sunday. Delegates were present from various parts of the province, with a big representation present from Edmonton and Stony Plain by delegates and guests.

Miss Emelia Miller of Stony Plain was chosen President, and Miss M. Willie, Edmonton, secretary of the district.

Throughout the convention a serious note of progressive work was shown, while the young people pledged their fidelity to the historic Christian faith "once delivered to the Saints."

An outstanding resolution of the convention was that of laying special stress upon the aims of Bible study and missionary education for the coming year.

The convention came to a close Sunday evening, Rev. H. J. Boescher, preaching an inspiring sermon. He based his remarks on the words of our Lord: "Wist ye not that I must be about My Father's business?" and encouraged members of Walther League to be active in the most important business of their home, their church and their country—that of spreading the gospel of Christ crucified.

Among those present from Stony were: Val Kulak, Jac Schoepf, Louie Ulmer, Henry Kulak, Miss E. Ulmer, Miss Annie and Lydia Eberhardt, Miss E. Miller, from Spruce Grove, Rev. H. J. Boettcher.

Spruce Grove's Big Sports Day and Picnic.

Spruce Grove's Annual Sports Day on July 7th proved to be a very successful event, a record crowd being in attendance in the afternoon, at the running off of the games and the ball matches.

The brass band, under Bandmaster Appel, was on the job all afternoon and evening, and gave a fine selection of up-to-date musical numbers.

Reeve S. C. Hagen opened the proceedings with a speech which was listened to attentively.

The baseball game was a very good exhibition of the game; up to the 7th inning each side holding the other down to a very small score. After this the Grovers seemed to weaken and the Leaguers made a bunch of runs, winding up the game with 14 runs to the Grovers 8. The game kept the two umpires busy—Messrs Bell and Steffler acting as such.

The football game between Stony and a team from the

Winners at the Picnic.

Mr Stewart Arrives

Hon. Chas Stewart, member for West Edmonton, returned from Ottawa this week. With regard to his standing again in the coming election, Mr Stewart says the matter is in the hands of his friends—if offered the nomination he will accept.

"After all, the situation at Ottawa is a peculiar one—though the Liberals controlled the largest majority, the Conservatives controlled the largest group. Mr Meighen's advice was not good, for his government only lasted three days and he was defeated. So it is my contention that he must accept the responsibility," Mr Stewart added.

Mr Stewart remarked that the political situation, from a Liberal standpoint, looked good to him. "Of course there are a lot of things that may happen before the election, and we hope to make some changes."

Mr Stewart intends making his headquarters in Edmonton for some weeks.

Dance at Spruce Grove
Every Wednesday Eve.
Edmonton Orchestra.

Hudson Bay Co. was a good contest throat. Much was expected from the bunch of expert kickers from the City, but nothing of a very startling nature developed during the play, so no doubt the visitors let our team down easy when they seen the home bunters were a little rusty thru lack of practice. Stony's jump-up (among whom will be noticed several old reliables) was: Henry Miller (goal), Dr. Outway, E. Heichen, H. Sinner, Otto & Joe Hoffman, J. Goebel, D. Moyer, Gus Barh, J. P. Begley, A. Nother, Score—H B 4, Stony 2.

Basketball results: Walther League 14, Spruce Grove 5.

The tug-of-war proved a hard pull, but was won by Beuerlein's team. The winners were immediately challenged by the members of the land, with the landmen winning the pull.

The Dook's Hot dog stand on the north end of the refreshment booth was a big winner, there being a nice collection of shillings in the till when the last dogdoggan passed over the counter.

The dancing platform opposite the Dook's pork store was put in use for the first time, in the evening, and was kept crowded right up to the closing hour.

Spruce Grove Notes.

While coming up the Golden Spike road one evening last week in his car, Mr Struve had the misfortune to collide with a bovine which had suddenly appeared on the road while the driver was crossing a grade. Mr Struve is said to be trying to locate the owner of the animal.

Quite an improvement has been made in the road to Golden Spike, at the Jac Fuhr corner.

A class of young people preparing for confirmation is in progress this week at St Joseph's Church. Two sisters from the City are in charge.
